# ABOUT CONCENTRIC

concentric™  
INTERNATIONAL

Concentric International connects retail, wholesale, and original equipment manufacturers (OEM) customers with the value of global sourcing for products in agricultural, construction, industrial, lawn and garden, professional turf and utility equipment.

Founded in 1983 by John Ruan, who also founded Ruan International in Des Moines, Iowa, our staff includes salespeople, engineers, logistics specialists, technicians, copywriters, and accountants who specialize in the introduction and implementation of products. In addition to sales, our staff routinely performs extended services in both international and domestic markets. With our full-service warehouse centrally located in Des Moines, Iowa, products can be shipped efficiently to any destination.

Concentric International serves as a single-point-of-contact for our customers. We remove all the barriers and potential headaches from global sourcing. We often integrate fully into our customers' manufacturing and supply networks, creating exceptional visibility and seamless flow of products and parts. We also partner with customers to overcome their new challenges, including continuous product improvement as well as new product engineering, design, development and production.

## OEM Series Teeth

### Custom Designed To Meet Your Needs

OEM-specific teeth are designed and manufactured to meet client-specific applications and equipment requirements. Stock molds or custom-designed molds are used to build your unique rubber tooth design. Our teeth are made of the highest quality in materials and production controls providing maximum performance under the most demanding application conditions.

- Premium natural rubber compounds
- Injection molded
- Heat-treated tines for long lasting performance
- Premium bonding agents for maximum rubber adhesion
- Lab tested and batch quality checked
- Engineering resources to assist with design and build-to-specifications
- Inventory management and logistic support system available
- Korean-made (high-quality molding of rubber-to-metal since 1968)
- Supplying OEMs for more than 20 years
